

Procurement Policy

Introduction

Kingston First always strives to support local businesses when tendering for new contracts and services as we want to see more money invested in our town centre and to support local economic growth.

Contract tendering

- Any contract over £10,000 must be competitively priced and evidenced accordingly.
- All contracts over the value of £20,000 should be the subject of a competitive tendering exercise where at least two quotes are obtained, except where local circumstances dictate that only one service provider is relevant.
