

CASE STUDY

Pedicure Pro Line Beauty & Aesthetic Centre 2023

“Pedicure Pro Line is a distinguished beauty centre specialising in medical pedicure and foot health. Our establishment is equipped with specialised medical equipment and boasts a selection of high-quality products to ensure the utmost precision in our procedures.”

The Challenge:

In December 2022, Pedicure Pro Line found themselves in a precarious situation. They had recently renewed their electricity tariff when market rates were at historic highs. Faced with an upcoming renewal, Pedicure Pro Line sought to secure the most reliable guidance and support to navigate this volatile market.

The Solution & Outcomes:

Kingston First, in partnership with Beyond Procurement, is dedicated to providing support to members across various sectors, including energy, telecoms, IT support, business insurance, merchant services, pest control, waste & recycling, and water. Armed with information about Pedicure Pro Line's current usage and contract end date, Beyond Procurement orchestrated a competitive tender process with leading electricity suppliers.

The result was the establishment of a new, more favourable two-year contract, yielding an impressive 63% reduction in costs, ultimately resulting in a saving of £5,004 per annum.

“Through Kingston BID we used Beyond Procurement to renew our electricity contract. The process was really easy with great advice, and resulted in a £5004 pa saving.”

Pedicure Pro Line Beauty & Aesthetic Centre

This solution is a testament to the substantial savings that businesses can achieve through the Kingston First/Beyond Procurement partnership. By leveraging Beyond Procurement's strong relationships with suppliers and in-depth expertise within the energy market, they consistently deliver expert advice, navigate complex issues, and present optimal solutions that contribute to the financial well-being of businesses.
